Overall feedback for September 2023

Jessica is a very committed student, growing in confidence everyday, full of laughs, smiles, jokes and loves to ensure the classroom is always a fun place to be. That being said, when it comes down to getting work done Jessica shows good focus, listens to instructions and asks questions when they don't understand something. Which is definitely where we want Jessica to be. They are showing good progress across their subjects and we are interested to see how Jessica will score in their upcoming mocks, because we believe that based on their current performance, they are on track to hit their targets.
